

# **Sustainable Procurement Policy**

Copyright © 2008 Sustainable Methods Institute

By Prof. David A. Rivkin, PhD

## **Objective**

The procedure describes a common means of describing environmentally considerate procurement practices. The objective of these Guidelines is to procure articles with a lower environmental impact from suppliers that aggressively promote activities for environmental conservation, in respect of procurement of parts, materials, units, products and sub-materials (hereafter, articles to be supplied) for products produced by the organization.

## **Scope**

This procedure applies to all members of the organization and all departments involved in the design and manufacturing of material products.

## **Responsibility**

- It is the responsibility of all members in design engineering and manufacturing to comply with this policy.
- It is the responsibility of vendors to comply with the below listed [Requirements to Suppliers](#)
- It is the responsibility of the Executive Management to maintain and update this Procedure as needed.

## **Procedure**

### **Basic Policy for the Environment**

Recognizing the Earth is an irreplaceable asset and it is humankind's duty to hand it on to future generations in a sound state, the organization contributes to the development of a sustainable society by pursuing creation of new values and symbiosis with the Earth, in accordance with organizations' Environmental Vision.

### **Promotion of environmental management**

- The organization considers environmental stewardship to be one of management's primary responsibilities and promotes environmental activities in harmony with economic activities.
- The organization assesses the environmental aspects of its business activities, products and services, and specifies objectives and targets with respect to the reduction of environmental impacts and prevention of pollution.
- The organization strives to continuously improve environmental management through internal audits and reviews of activities.
- The organization complies with all laws and regulations, industry guidelines it has endorsed, and its own standards concerning the environment.
- The organization strives to enhance the awareness of all its employees with respect to the
